About me

Apple Certified Trainer for 4 years, I'm experimented in public presentation and detailed explanations. I am determined and try to use original ways to solve problems. I've already work in team and know how to delegate tasks, and I am able to work well under pressure.

Experience

January 2008 - **Freelance, iNig-Services**, Paris, France.

Current

- Training:
 - All Apple's IT courses. All training end by a certification exam (ACSP, ACTC, ACSA, Xsan 2)
 - Mac OS X and iOS development, from the discovery of Objective-C and OOP to the advanced use of Cocoa and Cocoa Touch frameworks.
- Consulting:
 - Installation and administration of complete IT assets based on OS X and OS X Server (Directory Server, DNS, DHCP, Mobile Account, iPhone over the air management...)
 - Mac OS X integration in heterogeneous environment
 - Development of Mac OS X and iOS applications (Directly for editors like mag-i.fr or visuamobile.com, for in house client usage and for personal use for my system administrator work)
- Blogging:
 - Maintainer of blog.inig-service.com, a blog on advanced administration of Mac OS X Server
 - Detailed articles on undocumented features such as "Wide Area Bonjour" (DNS-SD), Password Server password logging...
 - A lot of article like "Discover CrashPlan Pro E" are republished by mainstream web newspapers like macgeneration.com

February 2010 - **Objective-C professor, École Centrale Paris**, France.

Current

- Teaching Objective-C and OS X development to MSc Computer Science
- Training student in System Engineering (Master degree) to iOS and OS X development
 - Discovery of the Apple development environment (Xcode suite)
 - Introduction to Object Oriented Programming
 - Extensive usage of the Objective-C language and the Cocoa framework
 - Development of iOS applications

September 2011 - **Master trainer on Apple technologies, Campus ID**, Sophia Antipolis, France.

Current

- Teaching iOS and OS X Development.
- Main trainer and author of the Apple courses for bachelor and master

September 2007 - August 2009 **Supinfo Certified Trainer, SUPINFO - The International Institute of Information Technology**, France.

- Teaching Mac OS X system administration, iOS and OS X Development.
- Teaching for different Supinfo's campus across the world (France, Morocco, Canada)
 - Managing students teams working on projects for labo-apple.org

Computer skills

Operating systems	Mac OS X (client/server), Linux / BSD (client/server), Windows (client/server)	Network	IPv4, IPv6, Cisco IOS, Small Business Network with SOHO satellite		
Network Services	DNS, DHCP, VPN, AFP, SMB, NFS, mDNS / Bonjour, DNS-SD / Wide Area Bonjour...	Collaborative tools	Git, SVN, Redmine, Trac		
Languages	Objective-C, C/C++, Bash, Python	Frameworks	Cocoa, CoreData	CocoaTouch,	Carbon,

Certifications

Apple Certified Trainer (ACT 10.4 - 10.7)
Apple Certified System Administrator (ACSA 10.6)
Apple Certified Technical Coordinator (ACTC 10.4 - 10.7)
Apple Certified Xsan 2 Administrator
Cisco Certified Network Associate
Hurricane Electric IPv6 Sage

Education
