About me

Apple Certified Trainer since 2007, I'm experimented in public presentation and detailed explanations. I am determined and try to use original ways to solve problems. I've already work in team and know how to delegate tasks, and I am able to work well under pressure.

Experience

January 2008 - Current

Freelance, *iNig-Services*, Paris, France.
– Training:
  – All Apple's IT courses. All training end by a certification exam (ACSP, ACTC, ACSA, Xsan 2)
  – OS X and iOS development, from the discovery of Objective-C and OOP to the advanced use of Cocoa and Cocoa Touch frameworks.
– Consulting:
  – Installation and administration of complete IT assets based on OS X and OS X Server (Directory Server, DNS, DHCP, Mobile Account, iPhone over the air management...)
  – OS X integration in heterogeneous environment
  – Development of Mac OS X and iOS applications (Directly for editors like mag-i.fr or visuamobile.com, for in house client usage and for personal use for my system administrator work)
– Blogging:
  – Maintainer of blog.inig-service.com, a blog on advanced administration of Mac OS X Server
  – Detailed articles on undocumented features such as "Wide Area Bonjour" (DNS-SD), Password Server password logging...
  – A lot of article like "Discover CrashPlan Pro E" are republished by mainstream web newspapers like macgeneration.com

February 2010 - Current

Objective-C professor, *École Centrale Paris*, France.
Teaching Objective-C and OS X development to MSc Computer Science
– Training student in System Engineering (Master degree) to iOS and OS X development
  – Discovery of the Apple development environment (Xcode suite)
  – Introduction to Object Oriented Programming
  – Extensive usage of the Objective-C language and the Cocoa framework
  – Development of iOS applications

September 2011 - Current

Master trainer on Apple technologies, *Campus ID*, Sophia Antipolis, France.
Teaching iOS and OS X Development.
– Main trainer and author of the Apple courses for bachelor and master

September 2007 - August 2009

Supinfo Certified Trainer, *SUPINFO - The International Institute of Information Technology*, France.
Teaching Mac OS X system administration, iOS and OS X Development.
– Teaching for different Supinfo's campus across the world (France, Morocco, Canada)
– Managing students teams working on projects for labo-apple.org
